A few note about these results:

The results listed here have been retyped from the original results found in the Indiana Evening Gazette following the 1982 race. Copies were provided to us by Denny Cruse and IRRC Secretary and Fool's Run Race Director Dick Gigliotti, both of whom ran the 1982 race. The copies that I received were in such small print that scanning them would have yielded copies that would have been impossible to read. The original results included overall position, name, city and time up through place 100 after which the town was eliminated. Genc Gender was not indicated. I have added that. No indication of whether there were age groups awards.

Enjoy the results. Maybe you will find your name.
